JESSICA CORNMAN-HOMONOFF

web developer & graphic designer

EXPERIENCE

WEB DEVELOPMENT IMMERSIVE
Full Stack Web Developer
- Developed coding skills over the course of a 12-week intensive web development training program. Learned most sought-after skills in tech from JavaScript to Rails and use them to build websites, APIs, and full-stack applications.

Full Stack Application
- Built a full stack application called "Drank". Used Bootstrap, CSS, HTML, JS, JQuery, and Ruby. Designed a PostgreSQL database to manage user accounts and associate users and drinks.

Group Full Stack Application
- Built a full stack application called "Wanderlist" as part of a four person team. App integrated 4 different APIs to allow users to search destinations, save them, and read about them. Used Express and Mongo to build an API and integrated Bootstrap, SCSS, HTML, JS, and JQuery.

Full Stack Application
- Built a full stack application called "Palette." App integrated Dribbble API to allow users to find inspiration for Design. Used Ruby on Rails to build an API and integrated Bootstrap, SCSS, HTML, JS, and JQuery.

SILVER DIRECT
Production Artist/Graphic Designer
- Design logos, business cards, print ads, rack cards, sales flyers, product sheets, brochures, banners, direct mail pieces, promotional products and more. Make edits and changes to files. Willingness to take creative direction.
- Handle digital printing and bindery. Understanding of large format printing and 4-color print process. Complete assignments under tight deadlines.

BEEZE TEES
Graphic Designer
- Designed vector graphics and logos from concept through completion. Developed understanding of screen printing process and capabilities.
- Was able to work with varied styles and design techniques, while working with numerous accounts. Accommodated client's requests and requirements.
